

Hans Gamarra De Lima

Senior Full Stack Engineer

Ruby on Rails · React · Next.js · TypeScript · React Native

BAQ, Colombia - Remote hans.gamarra1303@gmail.com · +57 3003658742 · [LinkedIn](#) · [Github](#)

Summary

Senior Full Stack Engineer with 12+ years of experience building scalable web and mobile products using Ruby on Rails, React, Next.js and TypeScript. Experienced in fintech, high-traffic platforms and international teams, with strong ownership across backend architecture, frontend development, APIs, and mentoring developers.

Professional Experience

Full Stack Developer — Deep Space Robots | 2024 - 2025

- Delivered frontend development for **CRU Global**, a Next.js application consuming a Ruby on Rails API, contributing to a successful worldwide launch.
- Built new pages and components for client websites using **Ruby on Rails, WordPress (Timber/ACF)**, and modern JS frameworks (**AstroJS, EmberJS, Vite**).
- Developed reusable, CMS-linked components for **Christian Vision** using **AstroJS + PHP/CraftCMS**, meeting client timelines for a global audience.

Senior Backend Developer — Koombea | 2023 - 2024

- Worked on **Tuily**, Koombea's fintech product, using **Ruby on Rails** to integrate with third-party services including **Mastercard** and **Domina** (messaging platform) for virtual and physical credit card issuance.
- Delivered backend updates and new features for an admin panel enabling employee card management.

Senior Software Engineer — Encora | 2021 - 2023

- Worked as a Full Stack Engineer on an **international team**, developing backend features and translating UI designs into web components used on global websites, delivering well-tested, production-ready code.
- Contributed to **Synack**, a leading global security platform, using **Ruby on Rails** and **ReactJS** to maintain and build new features, review teammates' code, and participate in technical discussions for new features.

Full Stack Software Developer — Ideaware | 2017 - 2020

- Worked across multiple teams on a dynamic, component-oriented, high-concurrency web application using **ReactJS (TypeScript)**, mentoring junior developers.
- Maintained a worldwide, high-concurrency survey and audience segmentation **API** using **Ruby on Rails**.
- Built the **Overwatch League** and **Call of Duty League** websites (Activision/Blizzard) using **ReactJS (Next.js/Flow)** and a **Node.js API** with **ContentStack**, delivering successful global launches with high customization for fans.

Senior Full Stack Developer — AppMeUp | 2014 - 2017

- Led a team of developers building applications with **Ruby on Rails, Sinatra, Elasticsearch,** and **ReactJS**.
- Developed mobile applications using **React Native** and **Ionic**.
- Managed DevOps for high-concurrency clients including **jCrush**, supporting thousands of simultaneous users through database optimization and horizontal scaling — covering server configuration, maintenance, and monitoring on **AWS**.

Skills

Javascript: Next.js, React, TypeScript, React Native/Expo,, AstroJS, Node.js

Ruby: Ruby on Rails, Gem development

Databases & Search: MySQL, PostgreSQL, MongoDB, Redis, GraphQL, Elasticsearch

Cloud & DevOps: AWS, CI/CD

CMS & Integrations: WordPress (Timber/ACF), CraftCMS

HTML + CSS: TailwindCSS, SASS, Material UI

Education

Systems Engineering — Universidad Autónoma del Caribe, Barranquilla, Colombia
(2008-2013)
